

## **Xeris Pharmaceuticals Announces Inducement Grants Under NASDAQ Listing Rule 5635(c)(4)**

September 27, 2019

CHICAGO, Sept. 27, 2019 (GLOBE NEWSWIRE) -- Xeris Pharmaceuticals, Inc. (Nasdaq: XERS), a specialty pharmaceutical company leveraging its novel technology platforms to develop and commercialize ready-to-use injectable and infusible drug formulations, today announced that on September 25, 2019, the Compensation Committee of Xeris' Board of Directors granted non-qualified stock options for an aggregate of 4,000 shares of its common stock to one new employee under Xeris' Inducement Equity Plan.

Xeris' Inducement Equity Plan is used exclusively for the grant of equity awards to individuals who were not previously employed by Xeris or one of its subsidiaries as an inducement material to such individual's entering into employment with Xeris or one of its subsidiaries, pursuant to Rule 5635(c)(4) of the NASDAQ Listing Rules. The non-qualified stock options will vest 25% on the first anniversary of the grant with the remaining 75% vesting in thirty-six equal monthly installments thereafter, subject to the employees' continued employment with Xeris or one of its subsidiaries. The non-qualified stock options are subject to the terms and conditions of Xeris' Inducement Equity Plan and forms of award agreements covering the grants.

### **About Xeris Pharmaceuticals, Inc.**

Xeris (Nasdaq: XERS) is a specialty pharmaceutical company delivering innovative solutions to simplify the experience of administering important therapies that people rely on every day around the world.

With a novel technology platform that enables ready-to-use, room-temperature stable formulations of injectable and infusible therapies, the company is advancing a portfolio of solutions in various therapeutic categories, including its first commercial product, Gvoke™. Its proprietary XeriSol™ and XeriJect™ formulation technologies have the potential to offer distinct advantages over conventional product formulations, including eliminating the need for reconstitution, enabling long-term, room-temperature stability, significantly reducing injection volume, and eliminating the requirement for intravenous (IV) infusion. With Xeris' technology, new product formulations are designed to be easier to use by patients, caregivers, and health practitioners and help reduce costs for payers and the healthcare system.

Xeris is headquartered in Chicago, IL. For more information, visit [www.xerispharma.com](http://www.xerispharma.com), or follow us on [Twitter](#), [LinkedIn](#) or [Instagram](#).
